Sketch

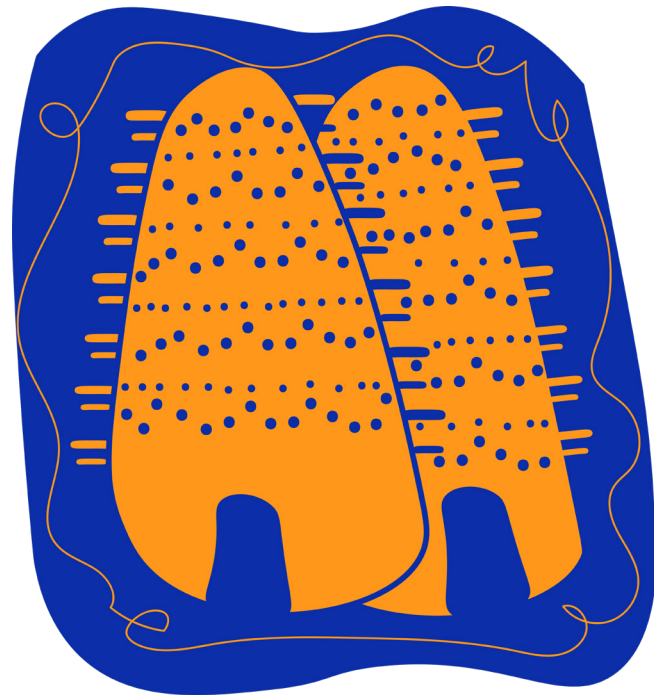

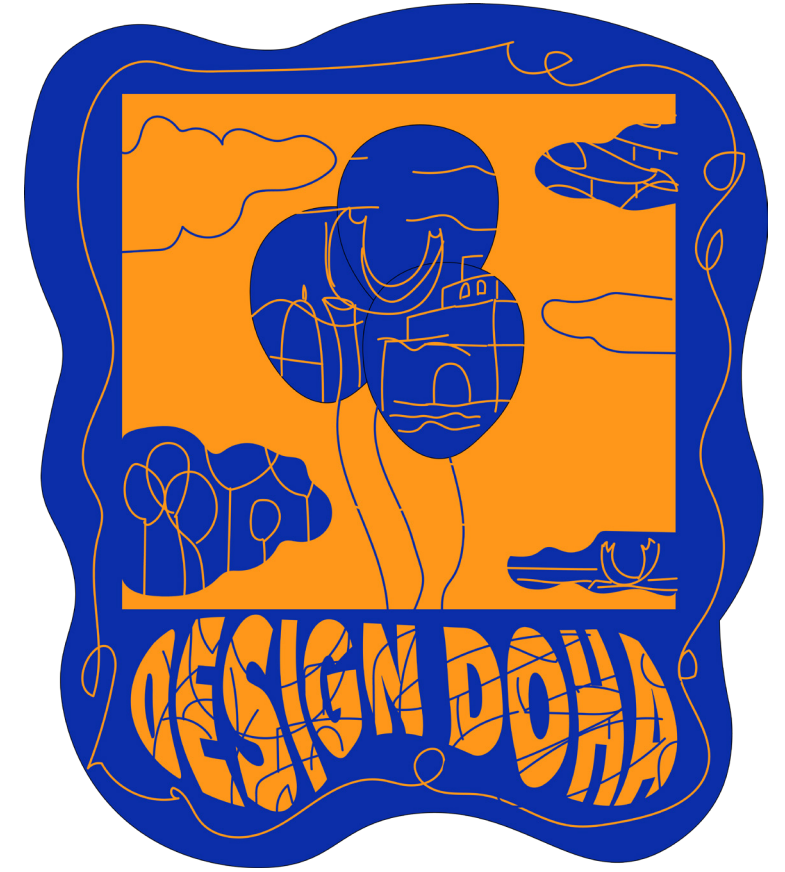

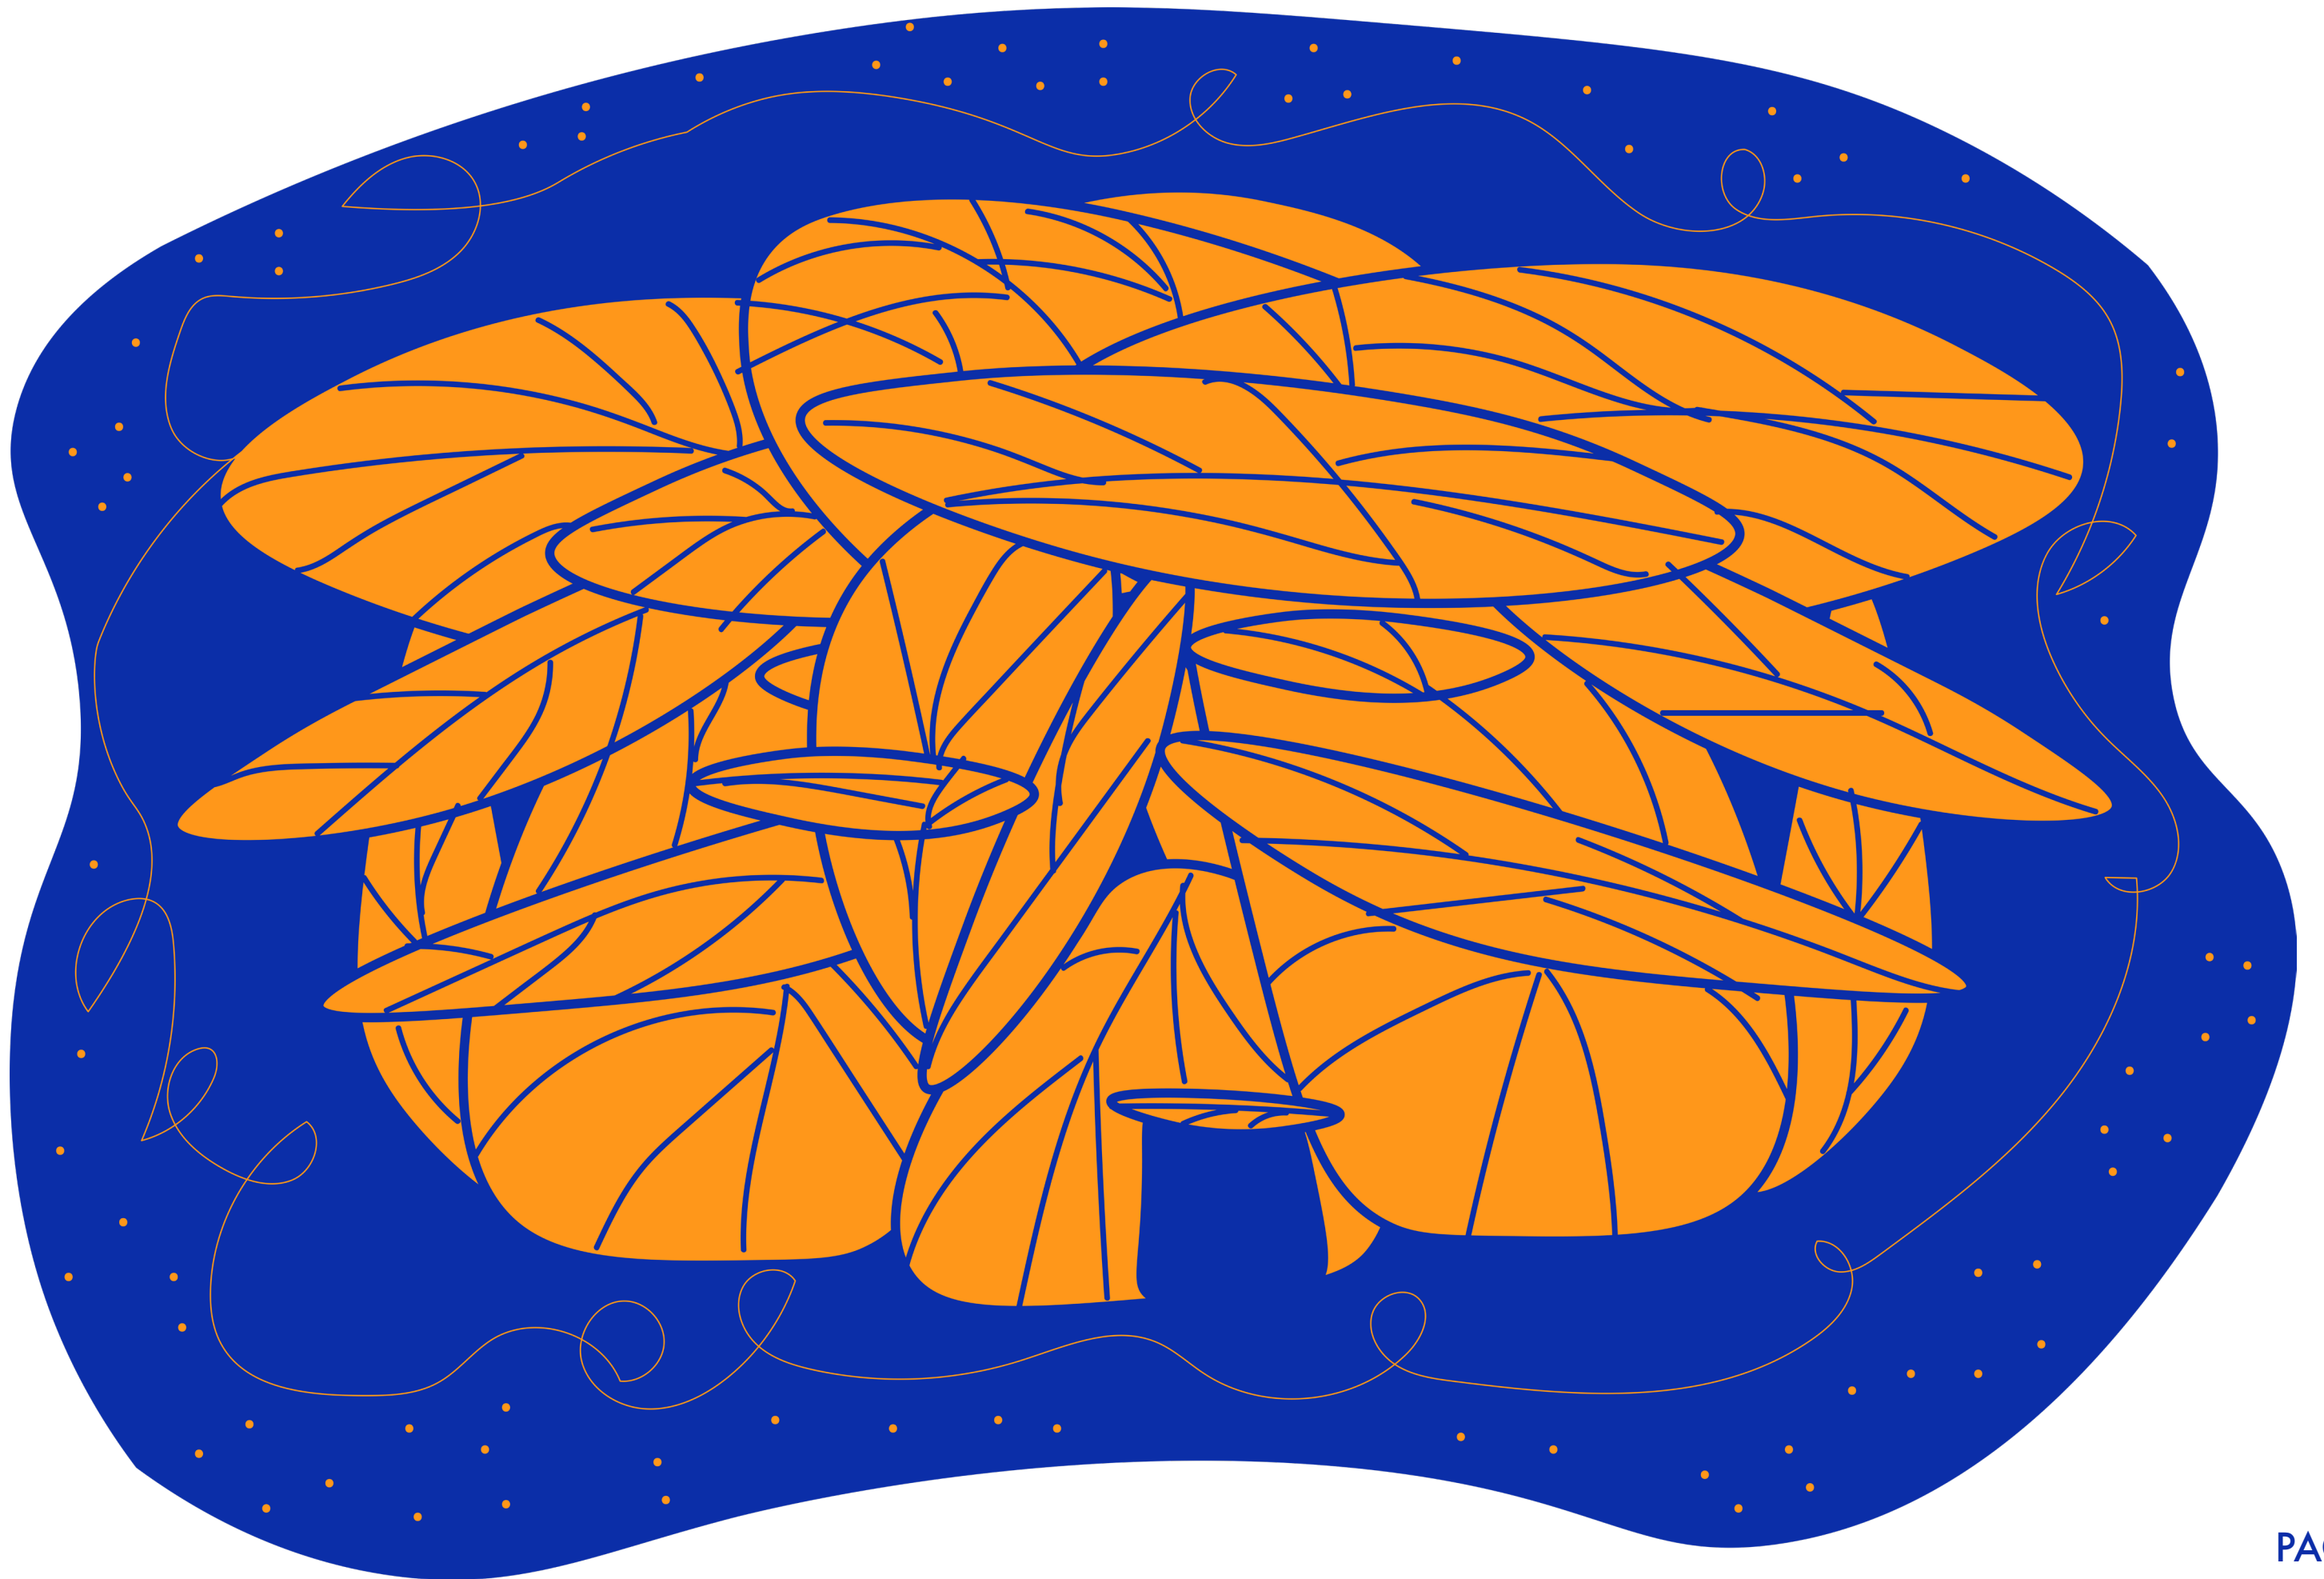

These designs combines a sketch-like, hand-drawn style with modern vector shapes to show how design can be both simple and contemporary. I was inspired by Doha's architecture, where modern buildings still honor traditional forms. The vibrant blue and warm orange reference the sea and the sand, grounding the work in the region's landscape.

EXAMPLES FROM PREVIOUS WORK

I would like to share a few examples of my work, where I translated my designs into tangible products such as acrylic pins and shirts. This process gave me valuable insight into how my designs function in the real world and helped me grow through hands-on production. I am excited to bring this experience into my Design Doha proposals and would be honored to see these designs realized and displayed in the Design Doha shop.
